Discount Promo Codes (v3.0)

Blackbox Solutions Ltd is pleased to announce that we are offering a 10% discount off the normal prices of our Vehicle diagnostic Systems for established members of the LR Forums listed below.

To be fair in all aspects, we can only offer this to established members of the forums and therefore must apply the following conditions:

1.      This offer is for forum members who are private individuals buying Blackbox Solutions products for their own use, it is not intended for the trade, businesses, distributors or friends of qualifying forum members.

2.      You must have been an active and contributory member of a forum listed below for at least SIX months and made a minimum of FIFTY regular posts.

3.      This offer is only for first time customers purchasing a new diagnostic system, or items from our basic bits range. The discount is applicable to all kits, individual accessories / Hardware items and Diagnostic software module licenses or unlock codes purchased at this time only. It does not extend to subsequent Hardware or Software purchases, upgrades, or re-license / unlock code fees. Performance Remaps purchased through us and Rovacom VCIQ are also exempt from this discount.

4.      The 10% discount is off the full price of items purchased directly from our websites shop only and cannot be added to any other offers that may be advertised on our own or other websites. Neither can the discount be claimed in conjunction with any other discount offered. It does not apply to shipping costs.

5.      If you are sure you meet the criteria described above, the next step is to go to the respective online store:

http://blackbox-solutions.com/shop for MSV-2 and Basic Bits.  http://nanocom-

diagnostics.com/shop for Nanocom equipment.

and purchase the required product(s) in the usual way. In the checkout wizard there is a box titled "Promo code". You must enter the relevant promo code there exactly as shown below without any variation, omission or addition, and fill in all the other boxes with your information and selections.

| Forum | Promo Code | Forum Contact |
|---|---|---|
| http://www.thed2boysclub.co.uk/ | D2BOYS1 | BBS Guy |
| http://www.defender2.net/ | DEFENDER2A | BBS Spy |
| http://www.disco3.co.uk/ | DISCO3UK1 | BBS Spy |
| http://www.disco4.com/ | DISCO4UK1 | BBS Spy |
| http://www.discotr.es/ | DISCOTRES1 | BBS Guy |
| http://www.freel2.com/ | FREEL21 | BBS Spy |
| http://www.fullfatrr.com/ | FULLFATRR1 | BBS Spy |
| http://www.rrsport.co.uk/forum/ | RRSPORT1 | BBS Spy |
| http://www.aulro.com/ | AULRO1 | BBS Guy |

6.        At the end of the check out procedure, you will be given an order Reference number. This must be PM'd to the BBS Forum Contact named in the list using the forums PM function within 1 HOUR of the order being placed.

7.        As long as you have correctly performed the two simple steps 5 and 6, and of course are eligible as per the criteria 1 to 4, we will then contact you and supply you with the discounted item and payment details. Otherwise your order will be processed without discount and you will be supplied an invoice and payment details at the regular prices.

8.        Do not enter the Promo code unless you are absolutely sure you meet the 1 to 4 criteria, and supply the PM as per step 6, as not only will you not get any discount, but this will significantly delay your order.

9.        We reserve the right to not supply this discount if we feel that you do not meet with the spirit of this offer in any way and to end the offer at any time at our sole discretion.

10.        Please be aware that failure to qualify for criteria 1 to 4 and exactly follow steps 5 and 6 in any way will result in the discount not being applied to your order and you permanently loosing eligibility for this discount. We will not re-process orders under any circumstances or accept re-orders for discount after cancellations of a previous order.

Accessories you may want to consider for the Faultmate MSV-2:

**AC001** POWER SUPPLY 100-240/12v (does not include industry standard figure of 8 lead).

**AC006** USB TO RS232 If the laptop/PC being used with the system does not have a native serial port then a Serial to USB adapter is mandatory.

**AC029** Bluetooth Module gives a greater working distance from the vehicles OBD socket to the laptop/PC and vehicle server.

**AC030** Micro Bluetooth Adaptor Recommended with AC029, Mandatory if the PC/Laptop has no Bluetooth capabilities.
